

AMUR MAPLE

Acer ginnala

University of Alabama - Huntsville

Mature Height	15-20 Feet	Soil Type	Well-drained
Mature Spread	15-20 Feet	Flower Color	Light Yellow
Mature Form	Irregular Ovate	Foliage Color	Dark Green
Growth Rate	Slow	Fall Color	Yellow to Red
Sun Exposure	Full Sun to Partial Shade	Zones	3-7
Soil Moisture	Widely Adaptable		

The Amur Maple, *Acer ginnala*, is a small tree perfect for street, specimen, or hedge planting. It is early to leaf out in the spring and early to turn to its showy red in autumn. In the early spring, this tree produces clusters of small, fragrant flowers. In the summer it produces abundant reddish-brown fruit.

The Amur Maple adapts well to many soil types and moistures, but it prefers areas that are well-drained. This tree transplants easily and is also easily pruned.
